SEASONS IN CERAMICS

A FARMHOUSE AT DUSK, WINTER'S FIRST SNOWFALL,
A HANDFUL OF ZINNIAS IN A TIME WORN PITCHER . . .
these are the wistful images captured by Bob Timberlake's skilled hand and
discerning eye. For more than 30 years, Bob Timberlake has turned his innate
talent into realistic paintings coveted by collectors the world over.

Winter's Gift

But painting is just one of Bob Timberlake's pursuits. Inspired by the American craftspeople that produced beautiful furniture, weavings and pottery out of necessity, Bob Timberlake created one of the most popular lines of furniture and decorative accessories in the home furnishings industry.

The *Bob Timberlake* line is not easily categorized, but is easily defined: quality materials, impeccably crafted, compelling textures and colors, beautiful in both form and function.

The *Bob Timberlake*® collection of tile from Epro is available through all Epro distributors. For more information on Epro call 866-818-3776. For information on *Bob Timberlake* products call 1-800-550-6694.

EPRO'S NEWEST LINE OF CERAMIC TILES HAS BEEN DESIGNED EXCLUSIVELY FOR *BOB TIMBERLAKE* and is only available through Epro distributors. Inspired by the beauty of the natural world, the collection is designed around four seasonal themes, each incorporating a palette of earthy colors and designs. Choose from one season or combine all four to create your own original masterpiece.

Like all Epro tile, the Bob Timberlake® collection is American made, designed and molded by skilled artisans. Each installation embodies the unique charm and exquisite quality that is representative of all pieces bearing the artist's name.

Comfortable, casual with a touch of elegance, Epro's Bob Timberlake tiles capture your sense of style.

GARDEN PATH

The *Bob Timberlake*® Garden Path collection by Epro brings the beauty of the season indoors. The tiles combine the subtlety of a single bloom with the vivid energy in the pansy's plentiful blossoms. With a breath of fresh air and a promise of new life, this collection spills the sumptuousness of spring into your home.

SUMMER DAY

The lazy days of summer leave the spirit free and the mind relaxed. The *Bob Timberlake*® Summer Day collection by Epro captures the essence of the season with graceful, fragrant herbs, sun drenched leaves and trailing ivy. Bring summer into your home and celebrate life's simple pleasures everyday.

Polychrome decos and borders are a fixed pallet of colors available on Morning White, Dove, Mushroom, and Pheasant Green backgrounds only. For example, all Daffodil decos have a yellow flower with green leaves and stems.

HARVEST

Never has a tile collection so perfectly captured the magic of a crisp fall day. The *Bob Timberlake®* Harvest collection by Epro pairs the majestic colors of falling leaves with an occasional blossom and plentiful acorns. Reminiscent of glorious hues swirled together by gentle winds, the collection graces your home with warmth and comfort.

TECH NOTES

All Bob Timberlake tiles are nominally sized; this means that a 6" x 6" tile will be 5 5/8" x 5 5/8" design size, all tiles sold assuming a 3/8" grout joint. Because of the handcrafted nature of our tiles, all dimensions given are approximate.

For additional slip and/or wear resistance on Bob Timberlake tiles, an optional abrasive finish is available.

All Bob Timberlake designs and colors are licensed and are not interchangeable with other Epro designs or colors.

MAINTENANCE

Regular cleaning is easy. Just sweep regularly and damp mop as necessary, using warm water and a neutral cleaner such as Masterpiece European Stone Soap.* To clean stubborn spots or grout joints, use a stiff natural bristle brush.

ORDERING

Most tile is shipped in cartons containing 10 square feet. Trim and decorative tiles are sold per piece. See sales representative for details. To locate your nearest dealer visit www.eprotile.com

INSTALLATION

Refer to the Tile Council of America's publication, Handbook of Ceramic Tile Installation, and follow instructions for your specific type of application.

*Available through your Epro Tile representative

The Epro Difference

Since 1963 Epro, Inc. has quietly yet meticulously employed the old world techniques required to produce authentic, hand-crafted tile.

Today, even while automated assembly lines and subsidized imports flood the marketplace with mundane machine made tile, Epro remains one of America's premier handcrafted tile manufacturers.

American Craftsmanship

The most distinguishing characteristic of Epro tile is a byproduct of our manufacturing process. Because each tile is made individually, no two tiles are alike. Each is an original. That means each installation is, indeed, a unique work of art, which adds to the quality and value that define any hand-crafted product.
